## ADD/ADHD

Part 1: Defining \& Identifying ADD/ADHD
Webinar Training

1. $A D D / A D H D$ is defined as developmentally $\qquad$ behavior that may show
itself in a short $\qquad$ , poor $\qquad$ and/or
$\qquad$ .
2. This behavior is not due to $\qquad$ issues, low $\qquad$
$\qquad$ and/or reaction to recent $\qquad$ .
3. Other features of ADD/ADHD are low frustration $\qquad$ lack of
$\qquad$ skills, $\qquad$ and/or poor
$\qquad$ -.
4. All these features must last $\qquad$ or longer and they are demonstrated across
$\qquad$ _.
5. When identifying ADD/ADHD, the characteristics would not be related to other
$\qquad$ -or $\qquad$ disorder.
6. No $\qquad$ or $\qquad$ test nor medical procedure can identify ADD/ADHD.
7. Not all $\qquad$ or $\qquad$ is related to ADD/ADHD.
8. ADD/ADHD can be identified from childhood through $\qquad$ .
9. Assessing ADD/ADHD for school intervention typically involves the use of $\qquad$
$\qquad$ .
10. Both $\qquad$ and teacher need to be involved in the assessment and intervention process.
11. A case study should be completed when intervention strategies are not sufficient enough to reduce the $\qquad$ impact of attentional difficulties, impulsivity, and/or hyperactivity
12. $\qquad$ Amendments of 1997 and Section $\qquad$ of the Rehabilitation Act of

1973 along with other legal mandates arising from lawsuits require school based accommodations for students with ADD/ADHD.
13. Accommodations for students with ADD/ADHD include:

- $\qquad$
- 

$\bullet$ $\qquad$ .
14. Medicine alone is usually $\qquad$ enough!
