

Log on to www.pearsonsuccessnet.com

When your page opens,
at the top, click Contents | Search

The reason search must be used - is that these games, etc, can be assigned to a class/student - WHEN we are at that point. WHEN we are able to assign - teachers will be able to see how much time a student spent on the activity.

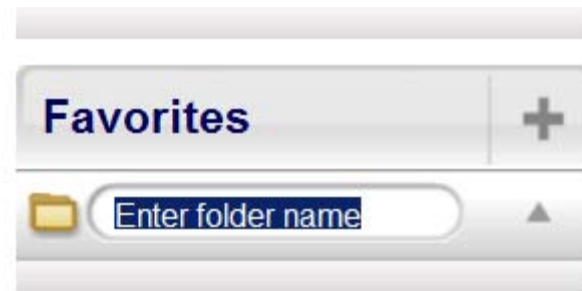

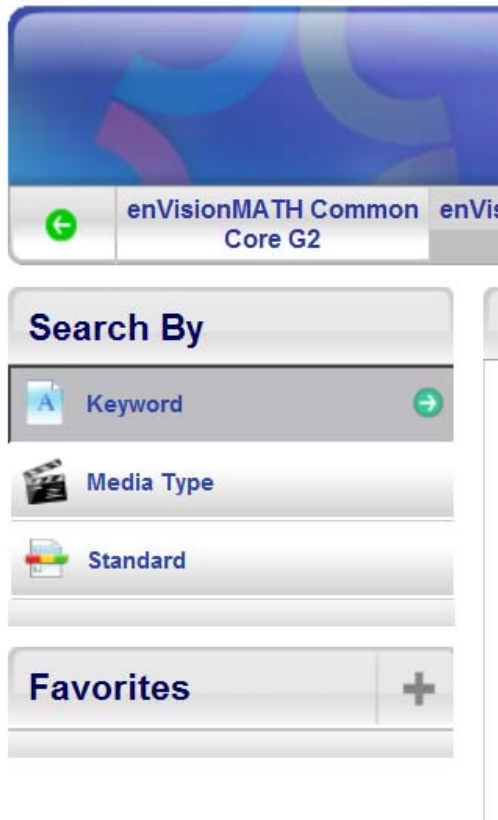

This window will open

- You can search for specific games (Hamster Hotel)
- Visual Learning Animations (these are videos)
- Songs
- And other interactive games and activities (this includes etools)

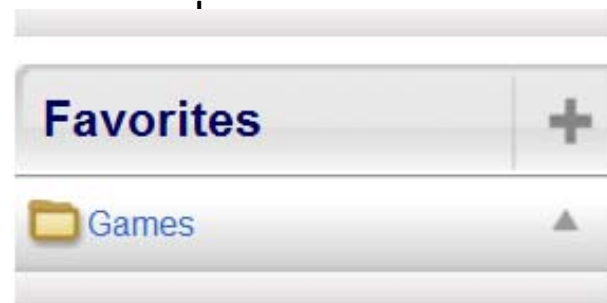

To avoid having to search each time – you can create folders under Favorites for sorting

To create a folder – click the + next to Favorites

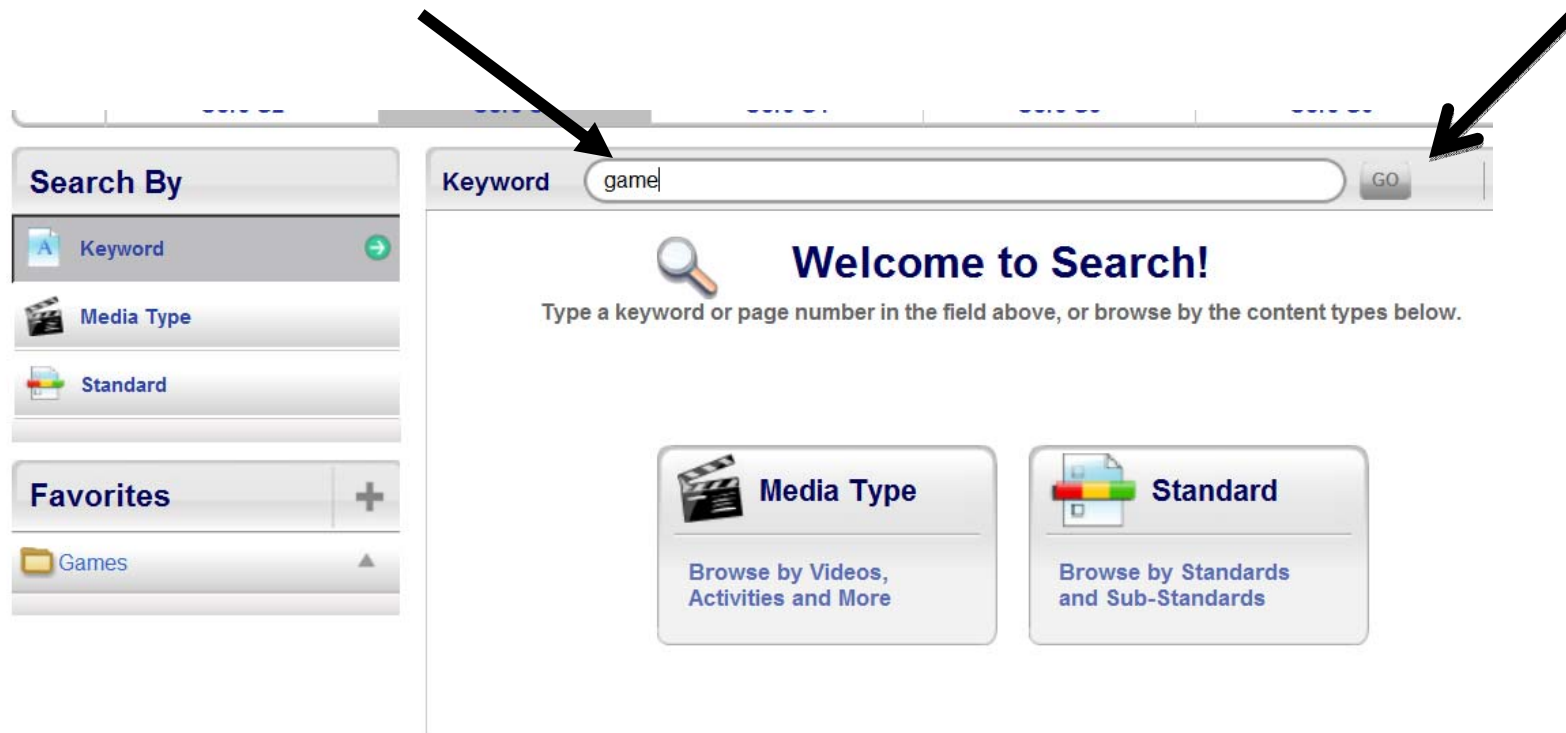

Type the name of your folder

I have used Games for this

Type in game in the keyword window
Click Go at end of window

Click and drag the game you want to put in the folder and let go

Search By

- Keyword
- Media Type
- Standard

Favorites

- Abra Ca-Rabbits

filter by keyword GO

The screenshot shows the Pearson SuccessNet interface. At the top, there are navigation tabs: Home, Content, Planning, Classes, and Reports. Below these are links for Table of Contents, Tests, Search, and Leveled Reader Database. A banner at the top right says "Select your program to explore your table of contents." with a green download icon. Below the banner are five buttons for enVisionMATH Common Core levels: G2, G3, G4, G5, and G6. On the left, there is a "Search By" sidebar with options for Keyword, Media Type, and Standard. Below that is a "Favorites" section with a plus sign and a folder icon for "Games". A black arrow points to the "Games" folder, which contains the item "Abra Ca-Rabbits". To the right of the sidebar is a search box with the text "filter by keyword" and a "GO" button. Below the search box is a "Results for game" section with a table of results.
